Dear Friends of Bokar Thubten Ling:

The dharma center Bokar Thubten Ling (BTL) of Ibiza finds itself in a delicate situation as the land next to the center is for sale. Currently on this land is the mobile home retreat house, the entrance road to the dharma center, and about half of the parking lot. BTL currently rents this land. If the land is taken over by a new owner, not only would BTL lose part of the space and access it is already using, it would also face the risk of various obstacles from the new owners. Thus, BTL, registered as a Religious Community, needs to buy this land.

When Khenpo Rinpoche was informed of the situation, he fully supported the intentions of Anna and the Center and said that he thought it would be good to acquire the land. With our trust in Khenpo Rinpoche's blessings, we have initiated this campaign and hope that with the support of many, it might come true.

The price of the land is 80,000 euros, an amount that the Center does not currently have. However, with the help of some donations already received, this fundraising effort, and a loan from a bank for the remainder, the purchase looks feasible. Over the next few months, we will gather as many donations as we can and will then determine our next steps.

We are sharing this information with you in case you feel moved to be part of sustaining and strengthening the activity of Bokar Thubten Ling. Any level of contribution would be greatly appreciated. We will keep you informed about the development of this project.

With much devotion and gratitude,

Bokar Thubten Ling (Ibiza)
